NOTES

1. Service numbers do not necessarily indicate lineal rank; they are for identification only.

2. *Appointments and promotions.*—Certain appointments and promotions reflected in this volume are subject to physical qualification and/or confirmation by Congress. The fact of listing in this Register in no way alters these or any other conditions.

3. *Temporary date of rank.*—Temporary date of rank where same as permanent does not necessarily indicate that officer holds such temporary grade but is shown for machine statistical purposes.

4. *Promotion List Service Date.* — The promotion list service date reflects the amount of service credited for promotion purposes at time of initial appointment in the Regular establishment. It is used to determine the mandatory date for permanent promotion in the Regular Air Force, but is not necessarily the date from which mandatory retirement is computed. It does not always include all Active Federal Commissioned Service inasmuch as the law under which officer was appointed specifies what credit will be given for promotion purposes. Also many officers received promotion credit based on their age at time of appointment, or credit for certain professional training, rather than service. Officers who transferred from the Army when the Air Force was first established retained the same Promotion List Service date and relative position on the applicable promotion list as held in the Regular Army. Any adjustments subsequent to date of appointment have been made in accordance with amendments to the appointment and/or promotion laws, or in accordance with rulings of the Judge Advocate General, USAF. Adjustments in promotion list service and position authorized by recent legislation (Public Laws 497 and 737, 84th Congress) are not all reflected in this Register. The fact that such changes are not listed does not in itself indicate that no adjustment is authorized, but that information may not have been available and/or compiled in sufficient time for publication at this time. All changes authorized are being announced in official Department of the Air Force publications for Air Force wide distribution, and changes will be made in official records maintained by Headquarters USAF.

5. *Pay date.*—The pay date is that date from which longevity is computed and represents the cumulative years of service to be computed by members of the uniformed services for determining basic pay. All service, active and inactive, as shown in Chapter 4, Part I, AFM 173–20, as amended is creditable.
